To obtain a challenging position in a IT field where I can effectively apply my academic knowledge and enhance my technical skills, improve continuously and grow as a software professional.

### ◆ Technical Skills

Programming Languages:	C, C++, Java, Python, JavaScript
Web Technologies:	HTML, CSS, React.js, Node.js
Databases & Query Languages:	MySQL, SQL, DBMS, MongoDB
Machine Learning:	Data Preprocessing, Model Training, Model Validation
Development Platforms:	Visual Studio Code, IntelliJ IDEA, Code::Block, Git, Github

### ◆ Education

#### Master of Computer Applications (MCA)

Passing Year: 2025 | CGPA: 7.5/10

Graphic Era Hill University, Dehradun

#### Bachelor of Science (Computer Science)

Passing Year: 2023 | 56.7%

Vardhman college bijnor, Bijnor (U.P.)

#### 12<sup>th</sup> from U. P. Board

Passing Year: 2020 | 77%

S.B.D.M. Intermediate College,  
Rampur Ghoghar, (MORADABAD)

### ◆ Projects

#### ➤ Diabetes Prediction Web App

**Tech Stack:** HTML, CSS, Flask, Python, Machine Learning

- Developed a multi-page web application that predicts the risk of diabetes based on user's input.
- Designed a clean and responsive user interface to ensure ease of data input and result interpretation.
- Integrated a pre-trained machine learning model to perform real-time predictions with high accuracy.

#### ➤ To-Do List App

**Tech Stack:** HTML, CSS, JavaScript, React.js

- A simple and interactive To-Do List web application that allows users to add, delete, and manage daily tasks efficiently.
- The app enhances productivity by helping users keep track of their to-dos in an organized way.

### ◆ Certifications

- **Object Oriented Programming with Java-** Coursera, Universidad de Palermo
- **English for Career Development-** Coursera, University of Pennsylvania
- **Introduction to HTML5-** Coursera, University of Michigan
