| Platforms and Version Control: | Visual Studio Code, IntelliJ IDEA, Code::Block, Git, Github |

◆ Education

Master of Computer Applications (MCA)

Passing Year: 2025 | CGPA: 7.05/10

Graphic Era Hill University, Dehradun

Bachelor of Science (Computer Science)

Passing Year: 2023 | 56.7%

Vardhman college bijnor, Bijnor (U.P.)

12th from U. P. Board

Passing Year: 2020 | 77%

S.B.D.M. Intermediate College,
Rampur Ghoghar, (MORADABAD)

◆ Projects

➤ Diabetes Prediction Web App

Tech Stack: HTML, CSS, Flask, Python, Machine Learning

- Developed a multi-page web application with a clean and responsive UI to ensure ease of input that predicts the risk of diabetes based on user's input.
- Integrated a pre-trained machine learning model to perform real-time predictions with high accuracy.

➤ To-Do List App

Tech Stack: HTML, CSS, JavaScript, React.js

- A simple and interactive To-Do List web application that allows users to add, delete, and manage daily tasks efficiently.
- The app enhances productivity by helping users keep track of their to-dos in an organized way.

◆ Certifications

- **Object Oriented Programming with Java-** Coursera, Universidad de Palermo
- **Introduction to HTML5 and CSS3-** Coursera, University of Michigan
- **JavaScript From Scratch-** Udemy, Kioomars Jonood
- **Python Mastery: 100 Days, 100 Projects-** Udemy, School of AI
